m v o o h z m v - o z -	The 6-8 Discipline Matrix sets forth the guidelines for assessing consequences of district policy violations that occur at school, on school property, or at school openoared events, School Principal/Discrete and the Office of PK-12 and Educational Programs have the discretion to deviate from these guidelines by assessing an appropriate consequence other than stated in the Matrix, if he or she determines in his or her sole discretion that there are mitigating or aggravating siccumeliances.  Progressive discipline is a whole-school approach that utilizes a continuum of interventions, supports and consequences to address inappropriate behavior and build upon strategies that promote positive behaviors. When inappropriate behavior occurs, disciplinary measures should be applied within a framework that chilfs the focus from one that is solely punitive to a focus that is both corrective and supportive. It is designed to create the expectation that the degree of discipline will be in proprior to the severity of the behavior leading to discipline and that the provise disciplinary mistory of the student and all other relevant factors will be taken into account. Repeated instances of the came behavior may result in more severe consequences.  Action Legand — Consequences/Intervention  Decumentation in FOCUS and parent contact is required for all violations requiring administrative action. Discipline for ESE/604 students with disabilities shall be in accordance with state and federal laws and district policies.
