**Instructional Materials Alignment and
Adoption Reporting**

2023-2024

REQUIREMENT Rule 6A-7.0715

School District Annual Requisition Plan

- Core Courses
- Instructional Materials to be used
- District Plan for Use of Instructional Materials - Instructional Materials Policy

Certification of Alignment and Adoption of Instructional Material

- Alignment with state academic standards
- Selection and adoption process complies with procedures set forth in policy

Certification of Alignment and Adoption of Instructional Materials (Form IM-A)

Where a school district implements its own instructional materials program under the provisions of section (s.) 1006.283, Florida Statutes (F.S.):

I certify, the following:

- Instructional materials used by the school district in core courses are aligned with state academic standards, as set forth in s. 1003.41, F.S., and Rule 6A-1.09401, Florida Administrative Code; and
- The school district's process for the review, selection and adoption of instructional materials complies with hearing requirements established by a district school board and the public meeting requirements set forth in s. 1006.283(2)(b)8., F.S.

PROCESS FOR EVALUATING AND SELECTING TEXTBOOKS

- Establish a School-Based Instructional Materials Review Committee.
 - Content specialists for subject area
 - Curriculum specialists
 - Teachers, administrators
 - Parent(s)
- Adhere to the requirements for reviewers set forth in rule.
 - At least 1 parent of a child in public schools
 - All reviewers of instructional materials must participate in Library Media Training
- Follow processes and procedures established in the district's Instructional Materials Policy.

Florida adopts instructional materials for specific courses within a selected subject area on a rotating basis. The Florida Department of Education publishes specifications for course materials and standards. Detailed information is available on the [FLDOE website](#).
