School Advisory Body Education Committee

Article VI of the School Advisory Body (SAB) Bylaws authorizes SAB to establish up to three standing committees: Finance, Personnel, and Education, as needed, to make recommendations to the full SAB.

Florida Statute Requirement

Section 1006.28, F.S. requires that each district develop a process to review ranking, eliminating or selecting instructional materials being recommended to SAB, and to review parent or community challenges to instructional materials. Procedures are outlined in the [Instructional Materials Policy](#).

All meetings convened for these purposes must be noticed and open to the public

Committee Participation Expectation

- Complete an online course provided by the FDOE regarding the requirements for the selection of instructional materials (less than 1 hour)
- Meet as a committee prior to the monthly SAB (5:00 pm).

Tentative meeting dates:

- November 18th - overview of the process
- February 17th - approval of the selection to evaluate deeply
- May 19th - final recommendation to full SAB committee

Recommendation

The recommendation is to establish the Education Committee of SAB. Members of the Committee must include three SAB members and may also include other members of the school and school community as needed for subject matter experts.

Committee meetings would be scheduled as needed for review of textbook options and if an Instructional Materials Challenge Form is submitted.
