

Out-of-Field Teaching Assignments

Section 1012.42, Florida Statutes, acknowledges that educators at times may be assigned a course or assigned students to teach outside the field in which they hold a Florida Educator's Certificate.

The educators identified below hold valid Florida Educator Certificates; however, have been assigned one or more English Language Learner students requiring the educators to take the appropriate steps to obtain the English for Speakers of Other Languages (ESOL) endorsement. The teachers are engaged in professional learning to add ESOL to their teaching certificate and in accordance with state regulations, they will be reported out-of-field each year until they fully obtain the ESOL endorsement on their certificate.
